

Wiggins Company Introduction

Wiggins was established in 2005 with the goal of delivering the best laboratory equipment and service for reliable results. Since then Wiggins has been producing top-quality general laboratory equipment, analysis apparatus and chemical reaction and purification solutions. Our brand Wiggins stands for high quality, durability and remarkable performance.

Wiggins is your reliable laboratory companion and provides products that can be used in different kinds of laboratory environments. The Wiggins product range includes:

ChemVak Pumps

Wiggins General Lab Equipment

Life Science Equipment

Zero Air Generators

ChemTron Reaction & Purification System

Reactor

Rotary Evaporator

Thin film evaporator

Molecular distillation device

ChemTron Analytics

Viscometer

Titration

Density

ChemTron Gas

H₂ Generators

N₂ Generators

O₂ Generators

ChemVak®

ChemVak, a brand of Wiggins, specializes in pump technology, offering a wide range of vacuum and liquid pumps for various applications. The product lineup includes chemical-resistant diaphragm pumps, oil-free pumps, rotary vane vacuum pumps, and vacuum filtration equipment. Additionally, it features peristaltic pumps, piston liquid pumps, solvent recovery systems, and bio-suction systems to meet diverse industry needs.

ChemTron®

ChemTron is our product brand focusing on analysis apparatus, gas generators, chemical reaction solutions, chemical process separation and purification solutions, including efficient chemical separation tools-rotary evaporator, thin film evaporator, molecular distillation device, automatic distillation system, crystallization system etc...

Pumps

Rotary Evaporators

Stirrers

Heating

Shakers

Incubators

Homogenizers

Reactors

Gas Generators
